Hello world markup

introduction

Below you see an amazing link:

- https://www.ost.ch/cas-security

CAS Project management
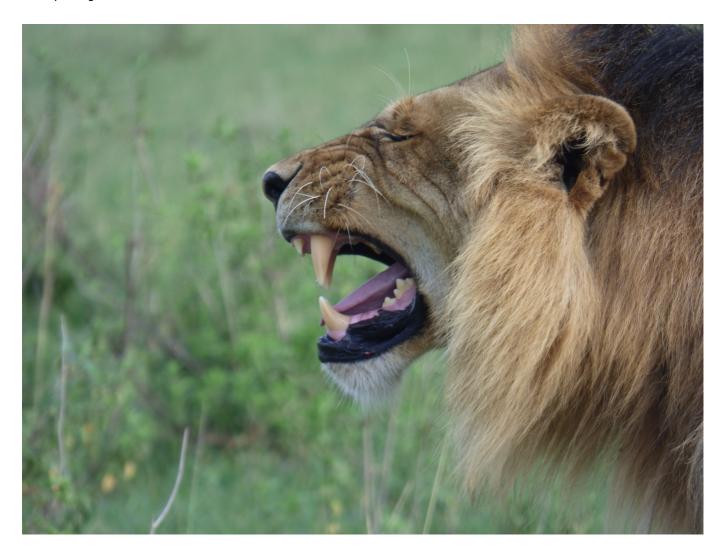

- Peter Nedic
  - peter.nedic@ost.ch
- Ivan Bütler
  - ivan.buetler@ost.ch
  - ivan.buetler@ost.ch

Teachers

1. Thomas Röthlisberger
2. Luke Skywalker
3. Darth Vader

Teacher	what will I learn from him/her
Thomas R.	I dont know yet
Luke Skyewalker	introduction to the force. Basic mind reading.
Darth Vader	basic steps in the dark side of the force. Some rants about Luke are to be expected

###Team

it is also possible to use html tags to some degree.. but might not be supported all over

Linux Command: IP Address

This command is outdated `ifconfig -a` better use

```
ifconfig -a

ip a
```

Some other formats besided code

> hello charater used: ">"

italics (* suround text with one start)

Thats it 😂
